**PUBLIC COMMENTS**

**NOTICE OF PUBLIC COMMENT TIME LIMIT**

Hearing of citizens during the Public Comment section of the Agenda is an opportunity for any member of the public to be heard about issues which are/are not topics scheduled for Public Hearing tonight. To help facilitate an orderly meeting, and to permit all to be heard, speakers are asked to limit their comments to a reasonable length of time.

---

  6. Pest Control Report
  7. Health Officer Monthly Update
- 

## **DISCUSSION ITEM(S)**

1. Chapter 23 – Ordinance Review
- 

## **RESOLUTION #18-05**

### **RESOLUTION OF THE CHATHAM BOROUGH BOARD OF HEALTH IN SUPPORT OF LEGISLATION CLARIFYING EXEMPTIONS FROM MANDATORY IMMUNIZATIONS FOR STUDENTS**

**WHEREAS**, Chatham Board of Health has held and continues to hold a position in support of vaccination, and;

**WHEREAS**, On March 5, 2018 the Senate referred Bill No. 2173 clarifying statutory exemptions from mandatory immunizations for students to the Senate Health, Human Services and Senior Citizens Committee for consideration, and;

**WHEREAS**, On April 5, 2018 the Assembly Health and Senior Services Committee released from Committee Assembly Bill No. 3818 for consideration by the full Assembly, and;

**WHEREAS**, these identical companion bills would impose more rigorous requirements in order for parents to claim a religious exemption from mandatory vaccinations for school children, and;

**WHEREAS**, Studies have demonstrated that the religious exemption is at times claimed either as a pretext by parents philosophically opposed to vaccine or simply as a convenience to avoid the necessity of arranging doctor appointments for administration of the vaccines, and;

**WHEREAS**, the New Jersey Department of Health reported that 10,407 religious exemptions were reported for the 2016-2017 school year, and

**WHEREAS**, The Star-Ledger reported that religious exemptions were claimed for nearly 9,000 students in the 2013-2014 academic year, compared with 1641 student in 2005-2006<sup>1</sup>, and;

**WHEREAS**, the scientific evidence that vaccines are safe is overwhelming<sup>2</sup>, and;

**WHEREAS**, the proposed legislation does not preclude an exemption when vaccination would conflict with bona fide religious tenets or practices, and;

**WHEREAS**, the decrease in vaccination rates poses a serious risk to public health<sup>3</sup>, and;

**WHEREAS**, outbreaks of vaccine preventable diseases, such as measles, pertussis, and mumps, are on the rise<sup>4</sup>, and;

**WHEREAS**, there is concern that vaccination rates have fallen below the recommended number to provide herd immunity to protect those who cannot be vaccinated.<sup>5</sup>

**NOW, THEREFORE, BE IT RESOLVED**, that the Chatham Board of Health, County of Union, State of New Jersey, fully supports the proposed legislation and urges the legislature to pass the bills promptly.

**BE IT FURTHER RESOLVED**, that upon passage by the New Jersey State Legislature that the Chatham Board of Health urges the Governor to sign the bill into law promptly.

**BE IT FURTHER RESOLVED**, that a copy of this resolution be forwarded to the Office of the Governor of the State of New Jersey, the State Legislators representing the Borough of Chatham, the Speaker of the New Jersey General Assembly, the President of the New Jersey State Senate, and the Commissioner of the New Jersey Department of Health.
