**PROCLAMATION**

**RESOLUTION #18-213**

**RESOLUTION DECLARING NATIONAL GUN VIOLENCE AWARENESS DAY JUNE 1, 2018**

**WHEREAS**, according to the latest CDC data, there were more than 38,000 gun-related deaths in the United States in 2016, amounting to a daily average of in excess of 104 fatalities due to firearms; and

**WHEREAS**, a recent Associated Press analysis of FBI data showed there were approximately 11,000 gun-related homicides in the United States in that same year; and

**WHEREAS**, according to a joint Organization for Economic Co-operation and Development (OECD) and World Health Organization (WHO) study, gun-related homicide rates in the United States for the year 2010 were at least 25.2 times higher in the United States than in any other high-income country; and

**WHEREAS**, support for the Second Amendment rights of law-abiding citizens is consistent with keeping guns away from people deemed to be a societal threat due to a violent criminal record, extreme moral turpitude, or serious behavioral infirmity; and

**WHEREAS**, in January 2013, Hadiya Pendleton, a teenager who marched in President Barack Obama's second inaugural parade and was tragically shot and killed just weeks later, would now be celebrating her 21<sup>st</sup> birthday; and

**WHEREAS**, to remember and honor Hadiya, along with the 104 Americans on average whose lives are cut short every day (not to mention the countless survivors who are injured by shootings every day), a national coalition of organizations has designated June 1, 2018, as the 4<sup>th</sup> National Gun Violence Awareness Day; and

**WHEREAS**, the idea of proclaiming a National Gun Violence Awareness Day was originally inspired by a group of Hadiya's friends, who requested that their classmates commemorate her life by wearing the color orange on a suitably selected day, a color so chosen due to the propensity of hunters in the woods to wear this hue for personal protection and also because it symbolizes the value of human life; and

**WHEREAS**, anyone can join this campaign of remembrance and commemoration by pledging to wear the color orange on June 1, 2018, and in so doing, help raise awareness of the tragic numbers of Americans currently dying each and every year due to gun-related injuries; and

**WHEREAS**, through participation in this campaign, Americans everywhere will be registering their disapproval of the shocking prevalence of gun violence in this country and equally honoring the lives of its many victims and survivors; and

**WHEREAS**, by wearing the color orange on June 1, 2018, citizens everywhere will be expressing their commitment to the reduction of gun violence and pledging to do all they can to keep firearms out of the wrong hands, encourage responsible gun ownership, and help keep our children safe.

**BE IT RESOLVED**, by the Mayor and the Council of the Borough of Chatham, that June 1, 2018 shall be declared National Gun Violence Awareness Day and all citizens are encouraged to join together to support all efforts to prevent the tragic effects of gun violence and to honor and value human lives everywhere.

**WHEREAS**, "Complete Streets" is the concept that all roadways should be designed, built and maintained for all travelers - pedestrians, bicyclists, transit users, and motorists of all ages and abilities; and

**WHEREAS**, because streets and sidewalks are part of the public right-of-way, they should accommodate all existing and potential users; and

**WHEREAS**, creating safe and desirable walking and bicycling environments promote healthy lifestyles by reducing barriers and providing opportunities for individuals young and old to achieve the greatest health possible; and

**WHEREAS**, Complete Streets have the potential for improving physical and mental health either directly or indirectly by:

- 1) Incorporating physical activity into our daily lives by increasing pedestrian activity and bicycle use;
- 2) Reducing rates of several chronic diseases related to increases in physical activity from walking and bicycling. Key impacted diseases include diabetes, heart disease, depression, and some cancers.
- 3) Reducing rates of injury and death from decreased traffic crashes and improved road safety for all users.
- 4) Reducing rates of asthma and other respiratory issues due to improved air quality through emissions reductions and vegetative air filtration.
- 5) Multiplying health and wellness benefits resulting from improved access to necessary amenities for vulnerable populations.
- 6) Reducing the risk of illnesses related to water-borne pathogens resulting from improved stormwater infiltration.
- 7) Increasing the sense of social connectivity & sense of community belonging.
- 8) Improving aesthetics through decorative and functional vegetation.”

And,

**WHEREAS**, streets are a critical component of public space and an asset in establishing the image and identity of a community, providing a key framework for the history of an area, as well as current and future development; and

**WHEREAS**, significant accomplishments in walking and bicycling have already been achieved through the creation of paths and walking routes to and from school for local children, as well as through local traffic safety programs; and

**WHEREAS**, Chatham Borough wishes to implement a Complete Streets Policy that applies to both new and retrofit projects, specifically through integration of this policy with the planning, design, construction, maintenance and operation of transportation facilities; and

**WHEREAS**, it is recognized that any policy must be flexible and reflect that all streets are different, including some streets or corridors in Chatham Borough which may not fully satisfy a complete streets environment, but that the transportation system overall will balance the needs of all users and support a comprehensive network of complete streets; and

**WHEREAS**, complete streets improvements will be based on best design and engineering practices , which may include street and sidewalk lighting; sidewalk and pedestrian safety improvements such as median refuges or crosswalk improvements; improvements that provide ADA (Americans with Disabilities Act) compliant accessibility; transit accommodations including improved pedestrian access to transit stops and shelters; bicycle accommodations including bicycle storage, bicycle parking, bicycle routes, shared-use lanes, and other elements, as appropriate; and, street trees, landscaping, street furniture and other streetscape amenities; and

**WHEREAS**, this policy, and, more specifically, a Complete Streets Plan with goals, performance measures, general guidelines for addressing the needs of all roadway users, and a project checklist, has been prepared and adopted as an amendment to the Borough’s Master Plan;

**BE IT RESOLVED** that all public street projects, including new construction, reconstruction, and maintenance undertaken by Chatham Borough shall be designed and constructed as “complete streets” whenever feasible to do so in order to balance the needs of all roadway users of all ages and abilities, subject to the following conditions/exemptions:

Exemptions to the Complete Streets policy shall be documented in writing and filed in the Borough Engineer's Office, for final approval by the Borough Engineer, with supporting data that indicates the reason for the decision, based on one or more of the following conditions:

- 1) Non-motorized users are prohibited on the roadway.
- 2) Cost of accommodations is excessively disproportionate to the cost of the project, comprising more than (20%) of total cost.
- 3) The safety or timing of a project is compromised by the inclusion of Complete Streets.
- 4) The Borough Engineer determines there is insufficient space to safely accommodate new facilities.
- 5) The project is located on a cul-de-sac or road with less than 500 average annual daily traffic (AADT).
- 6) In any project, should the inclusion of pedestrian, public transit, and/or bicycle facilities prove detrimental to wetlands, floodplains, streams, and/or historic/social resources, as determined by engineering analysis, those facilities shall not be required.
- 7) In any project where the inclusion of a new sidewalk, traffic calming feature, or other facility requires land disturbance beyond the existing paved cart way or will impact local travel patterns, a survey of residents directly impacted by the improvements will be undertaken. Should over half of the residents support the project, or should the project meet an overwhelming, documented safety need, then those features will be included in the improvement project.
